Wyatt RWB See **Hofmann AA**

Z

Zink WP See **Price CT**
Zuker RM: Volkmann's ischemic contracture: Technique of free gracilis transfer, 4(3):38

SUBJECT INDEX

A

Acetabular fracture
Classification and evaluation of acetabular fractures, Letournel E, 4(4):5
Internal fixation of acetabular fractures, Mears DC, Gordon RG, 4(4):36
Surgical approaches to the acetabulum, Mayo KA, 4(4):24
Arthritis
How to effectively treat the patient with arthritis: The effect of socioeconomic demographics on health status and surgical success, Kaufman RL, Beardmore TD, 4(1):6
Varus osteotomy of the upper femur for arthritis secondary to congenital dislocation of the hip in adults, Santore RF, 4(1):53

B

Biomechanics
Biomechanics of hip fractures, Blaha JD, Logue CM, 4(2):7
Bone transport
Bone transport: The Ilizarov treatment for bone defects, Paley D, 4(3):80

C

Cannulated screw fixation
Internal fixation of intracapsular hip fractures, Kyle RF, Giacchetto JJ, 4(2):31
Children
See Pediatric cases
Closed reduction
Management of hip fractures in children and adolescents, Schlesinger I, Wedge JH, 4(3):48
Management of severely displaced fractures of the proximal humerus in children, Beebe AC, Bell DF, 4(3):1
Management of severely displaced supracondylar fractures of the humerus, Wilkins KE, 4(3):5
Compartment syndrome
Diagnosis and treatment of upper extremity compartment syndrome, Sullivan CM, Mubarak SJ, 4(3):30
Computed tomography
Classification and evaluation of acetabular fractures, Letournel E, 4(4):5
Computed tomography of pediatric distal tibial growth plate fractures: A practical guide, Herzenberg JE, 4(3):53
Condylar blade plate
Reduction and fixation of subtrochanteric femoral fractures using the ASIF 95° blade plate, Marchesi DG, Kinast C, Lowery GL, Ganz R, 4(2):57
Corticotomy
Bone transport: Ilizarov treatment for bone defects, Paley DP, 4(3):80

D

Distal femoral osteotomy
Distal femoral varus osteotomy for the painful valgus knee, Healy WL, Wasilewski SA, Krackow KA, 4(1):47
Preoperative planning for osteotomies about the knee, Gustafson A, Santore RF, 4(1):30
Double innominate osteotomy
Double innominate osteotomy, Sutherland DH, Abel MF, 4(1):81

E

External fixation
Bone transport: The Ilizarov treatment for bone defects, Paley D, 4(3):80
External fixation of the pelvis: Application of the resuscitation frame, Sanders R, DiPasquale T, 4(4):60
Treatment of pediatric fractures with dynamic axial external fixation, Price CT, Levengood GA, Zink WP, 4(3):74
Extracapsular fracture
Prosthetic replacement for extracapsular fractures of the hip, Bernasek TL, 4(2):49

F

Fasciotomy
Diagnosis and treatment of upper extremity compartment syndrome, Sullivan CM, Mubarak SJ, 4(3):30
Femur
Biomechanics of hip fractures, Blaha JD, Logue CM, 4(2):7
Distal femoral varus osteotomy for the painful valgus knee, Healy WL, Wasilewski SA, Krackow KA, 4(1):47
Huckstep nail for ipsilateral fractures of the hip and femoral shaft and for subtrochanteric fractures, Tillett ED, Gleis GE, Seligson D, 4(2):65
Internal fixation of intracapsular hip fractures, Kyle RF, Giacchetto JJ, 4(2):31
Preoperative planning for osteotomies about the knee, Gustafson A, Santore RF, 4(1):30
Principles of deformity correction by the Ilizarov technique: Technical aspects, Paley D, 4(1):15
Treatment of pathologic hip fractures, Gitelis S, 4(2):73
Treatment of pediatric fractures with dynamic axial external fixation, Price CT, Levengood GA, Zink WP, 4(3):74
Valgus/flexion osteotomy for osteonecrosis of the femoral head: Indications and technique, Gottschalk F, 4(1):75
Varus osteotomy of the upper femur for arthritis secondary to congenital dislocation of the hip in adults, Santore RF, 4(1):53
Fibula
Treatment of pediatric fractures with dynamic axial external fixation, Price CT, Levengood GA, Zink WP, 4(3):74
Flexible fixation
Treatment of unstable intertrochanteric hip fractures, Waddell JP, 4(2):41
Forearm fracture
Internal fixation for forearm fractures in children, Wright J, Rang M, 4(3):44

G

Gracilis muscle transplant
Volkmann's ischemic contracture: The technique of free gracilis transfer, Zuker RM, 4(3):38

H

High tibial osteotomy
Preoperative planning for osteotomies about the knee, Gustafson A, Santore RF, 4(1):30
Hip
Double innominate osteotomy, Sutherland DH, Abel MF, 4(1):81
Slipped capital femoral epiphysis: A functional comparison of in situ pinning and primary osteotomy, Aronson J, Bombelli R, Benedini A, Santore RF, 4(1):64
Varus osteotomy of the upper femur for arthritis secondary to congenital dislocation of the hip in adults, Santore RF, 4(1):53
Hip fracture
Biomechanics of hip fractures, Blaha JD, Logue CM, 4(2):7
Huckstep nail for ipsilateral fractures of the hip and femoral shaft and for subtrochanteric fractures, Tillett ED, Gleis GE, Seligson D, 4(2):65
Internal fixation of intracapsular hip fractures, Kyle RF, Giacchetto JJ, 4(2):31
Management of hip fractures in children and adolescents, Schlesinger I, Wedge JH, 4(3):48
Prosthetic replacement for extracapsular fractures of the hip, Bernasek TL, 4(2):49
Reduction and fixation of subtrochanteric femoral fractures using the ASIF 95° blade plate, Marchesi DG, Kinast C, Lowery GL, Ganz R, 4(2):57
Treatment of intracapsular hip fractures, Gustke K, 4(2):19
Treatment of pathologic hip fractures, Gitelis S, 4(2):73
Treatment of unstable intertrochanteric hip fractures, Waddell JP, 4(2):41
Hospital practice
Hospital practice of orthopaedics, Dorr LD, 4(2):3
Huckstep nail fixation
Huckstep nail for ipsilateral fractures of the hip and femoral shaft and for subtrochanteric fractures, Tillett ED, Gleis GE, Seligson D, 4(2):65
Humerus
Lateral condylar fracture in children: Treatment of the acute fracture or the established nonunion, Dormans JP, Armstrong PF, 4(3):25

Management of severely displaced fractures of the proximal humerus in children, Beebe AC, Bell DF, 4(3):1
Management of severely displaced supracondylar fractures of the humerus, Wilkins KE, 4(3):5

I

Ilizarov apparatus
Bone transport: The Ilizarov treatment for bone defects, Paley D, 4(3):80
Principles of deformity correction by the Ilizarov technique: Technical aspects, Paley D, 4(1):15
Indirect reduction
Reduction and fixation of subtrochanteric femoral fractures using the ASIF 95° blade plate, Marchesi DG, Kinast C, Lowery GL, Ganz R, 4(2):57
Internal fixation
Internal fixation for forearm fractures in children, Wright J, Rang M, 4(3):44
Internal fixation of acetabular fractures, Mears DC, Gordon RG, 4(4):36
Internal fixation of intracapsular hip fractures, Kyle RF, Giacchetto JJ, 4(2):31
Huckstep nail for ipsilateral fractures of the hip and femoral shaft and for subtrochanteric fractures, Tillett ED, Gleis GE, Seligson D, 4(2):65
Lateral condylar fracture in children: Treatment of the acute fracture or the established nonunion, Dormans JP, Armstrong PF, 4(3):25
Management of displaced distal tibial injuries involving the physis, Mosca VS, 4(3):65
Management of hip fractures in children and adolescents, Schlesinger I, Wedge JH, 4(3):48
Open reduction internal fixation of the pelvis, Helfet DL, 4(4):67
Reduction and fixation of subtrochanteric femoral fractures using the ASIF 95° blade plate, Marchesi DG, Kinast C, Lowery GL, Ganz R, 4(2):57
Surgical approaches to the acetabulum, Mayo KA, 4(4):24
Treatment of intracapsular hip fractures, Gustke K, 4(2):19
Treatment of unstable intertrochanteric hip fractures, Waddell JP, 4(2):41
Intertrochanteric fracture
Treatment of pathologic hip fractures, Gitelis S, 4(2):73
Treatment of unstable intertrochanteric hip fractures, Waddell JP, 4(2):41
Intracapsular hip fracture
Internal fixation of intracapsular hip fractures, Kyle RF, Giacchetto JJ, 4(2):31
Treatment of intracapsular hip fractures, Gustke K, 4(2):19
Intracompartmental pressure monitoring
Diagnosis and treatment of upper extremity compartment syndrome, Sullivan CM, Mubarak SJ, 4(3):30
Intramedullary nailing
Internal fixation for forearm fractures in children, Wright J, Rang M, 4(3):44
Ipsilateral fracture
Huckstep nail for ipsilateral fractures of the hip and femoral shaft and for subtrochanteric fractures, Tillett ED, Gleis GE, Seligson D, 4(2):65
Management of severely displaced supracondylar fractures of the humerus, Wilkins KE, 4(3):5

J

Jig
High tibial osteotomy: Use of an osteotomy jig, rigid fixation, and early motion, Hofmann AA, Wyatt RWB, Beck SW, 4(1):41
Juvenile Tillaux fracture
Management of displaced distal tibial injuries involving the physis, Mosca VS, 4(3):65

K

Knee
Distal femoral varus osteotomy for the painful valgus knee, Healy WL, Wasilewski SA, Krackow KA, 4(1):47
Preoperative planning for osteotomies about the knee, Gustafson A, Santore RF, 4(1):30
Valgus osteotomy of the upper tibia, Coventry MB, 4(1):35

L

Lateral condylar fracture
Lateral condylar fracture in children: Treatment of the acute fracture or the established nonunion, Dormans JP, Armstrong PF, 4(3):25

M

Medical practice environment
Changing patterns of medical practice, Salisbury RB, 4(1):3
Multiple pin fixation
Internal fixation of intracapsular hip fractures, Kyle RF, Giacchetto JJ, 4(2):31

O

Office practice
Office practice of orthopaedics, Kerlan RK, 4(2):1
Open reduction
Internal fixation for forearm fractures in children, Wright J, Rang M, 4(3):44
Internal fixation of acetabular fractures, Mears DC, Gordon RG, 4(4):36
Lateral condylar fracture in children: Treatment of the acute fracture or the established nonunion, Dormans JP, Armstrong PF, 4(3):25
Management of displaced distal tibial injuries involving the physis, Mosca VS, 4(3):65
Management of hip fractures in children and adolescents, Schlesinger I, Wedge JH, 4(3):48
Management of severely displaced supracondylar fractures of the humerus, Wilkins KE, 4(3):5
Open reduction internal fixation of the pelvis, Helfet DL, 4(4):67
Sea-gull approach to the posterior pelvis, Jacobs RR, Montesano PX, 4(4):
Surgical approaches to the acetabulum, Mayo KA, 4(4):24
Treatment of pediatric fractures with dynamic axial external fixation, Price CT, Levengood GA, Zink WP, 4(3):74
Orthofix fixator
Treatment of pediatric fractures with dynamic axial external fixation, Price CT, Levengood GA, Zink WP, 4(3):74
Osteotomy
Distal femoral varus osteotomy for the painful valgus knee, Healy WL, Wasilewski SA, Krackow KA, 4(1):47
Double innominate osteotomy, Sutherland DH, Abel MF, 4(1):81
High tibial osteotomy: The use of an osteotomy jig, rigid fixation, and early motion, Hofmann AA, Wyatt RWB, Beck SW, 4(1):41
Preoperative planning for osteotomies about the knee, Gustafson A, Santore RF, 4(1):30
Principles of deformity correction by the Ilizarov technique: Technical aspects, Paley D, 4(1):15
Slipped capital femoral epiphysis: A functional comparison of in situ pinning and primary osteotomy, Aronson J, Bombelli R, Benedini A, Santore RF, 4(1):64
Valgus/flexion osteotomy for osteonecrosis of the femoral head: Indications and technique, Gottschalk F, 4(1):75
Valgus osteotomy of the upper tibia, Coventry MB, 4(1):35
Varus osteotomy of the upper femur for arthritis secondary to congenital dislocation of the hip in adults, Santore RF, 4(1):53

P

Patient care
Caring for the hospitalized patient with arthritis, Beardmore TD, Kaufman RL, 4(1):10
Changing patterns of medical practice, Salisbury RB, 4(1):3
Hospital practice of orthopaedics, Dorr LD, 4(2):3
How to effectively treat the patient with arthritis: The effect of socioeconomic demographics on health status and surgical success, Kaufman RL, Beardmore TD, 4(1):6
Office practice of orthopaedics, Kerlan RK, 4(2):1
Taking care of the patient, Dorr LD, 4(1):1
Taking care of the patient with total hip replacement, Jones RE, 4(4):1
Pauwels classification scheme
Biomechanics of hip fractures, Blaha JD, Logue CM, 4(2):7
Pediatric cases
Bone transport: The Ilizarov treatment for bone defects, Paley D, 4(3):80
Computed tomography of pediatric distal tibial growth plate fractures: A practical guide, Herzenberg JE, 4(3):53
Diagnosis and treatment of upper extremity compartment syndrome, Sullivan CM, Mubarak SJ, 4(3):30
Internal fixation for forearm fractures in children, Wright J, Rang M, 4(3):44
Lateral condylar fracture in children: Treatment of the acute fracture or the established nonunion, Dormans JP, Armstrong PF, 4(3):25
Management of displaced distal tibial injuries involving the physis, Mosca VS, 4(3):65

Management of hip fractures in children and adolescents, Schlesinger I, Wedge JH, 4(3):48
Management of severely displaced fractures of the proximal humerus in children, Beebe AC, Bell DF, 4(3):1
Management of severely displaced supracondylar fractures of the humerus, Wilkins KE, 4(3):5
Treatment of pediatric fractures with dynamic axial external fixation, Price CT, Levengood GA, Zink WP, 4(3):74
Volkmann's ischemic contracture: The technique of free gracilis transfer, Zuker RM, 4(3):38

Pelvic fracture
Assessment of pelvic stability following pelvic ring disruptions, Peters Jr PC, Bucholz RW, 4(4):52
Classification and evaluation of acetabular fractures, Letournel E, 4(4):5
External fixation of the pelvis: Application of the resuscitation frame, Sanders R, DiPasquale T, 4(4):60
Internal fixation of acetabular fractures, Mears DC, Gordon RG, 4(4):36
Open reduction internal fixation of the pelvis, Helfet DL, 4(4):67
Sea-gull approach to the posterior pelvis, Jacobs RR, Montesano PX, 4(4):65
Surgical approaches to the acetabulum, Mayo KA, 4(4):24

Percutaneous pinning
Internal fixation for forearm fractures in children, Wright J, Rang M, 4(3):44
Management of severely displaced fractures of the proximal humerus in children, Beebe AC, Bell DF, 4(3):1
Management of severely displaced supracondylar fractures of the humerus, Wilkins KE, 4(3):5

Pinning in situ
Slipped capital femoral epiphysis: A functional comparison of in situ pinning and primary osteotomy, Aronson J, Bombelli R, Benedini A, Santore RF, 4(1):64

Preoperative planning
Assessment of pelvic stability following pelvic ring disruptions, Peters PC, Bucholz RW, 4(4):52
Classification and evaluation of acetabular fractures, Letournel E, 4(4):5
Computed tomography of pediatric distal tibial growth plate fractures: A practical guide, Herzenberg JE, 4(3):53
Double innominate osteotomy, Sutherland DH, Abel MF, 4(1):81
High tibial osteotomy: The use of an osteotomy jig, rigid fixation, and early motion, Hofmann AA, Wyatt RWB, Beck SW, 4(1):41
Internal fixation of acetabular fractures, Mears DC, Gordon RG, 4(4):36
Preoperative planning for osteotomies about the knee, Gustafson A, Santore RF, 4(1):30
Prosthetic replacement for extracapsular fractures of the hip, Bernasek TL, 4(2):49
Reduction and fixation of subtrochanteric femoral fractures using the ASIF 95° blade plate, Marchesi DG, Kinast C, Lowery GL, Ganz R, 4(2):57
Valgus/flexion osteotomy for osteonecrosis of the femoral head: Indications and technique, Gottschalk F, 4(1):75
Varus osteotomy of the upper femur for arthritis secondary to congenital dislocation of the hip in adults, Santore RF, 4(1):53

Prosthesis
Prosthetic replacement for extracapsular fractures of the hip, Bernasek TL, 4(2):49
Treatment of intracapsular hip fractures, Gustke K, 4(2):19

R

Rehabilitation
Distal femoral varus osteotomy for the painful valgus knee, Healy WL, Wasilewski SA, Krackow KA, 4(1):47
Double innominate osteotomy, Sutherland DH, Abel MF, 4(1):81
Internal fixation of acetabular fractures, Mears DC, Gordon RG, 4(4):36
Prosthetic replacement for extracapsular fractures of the hip, Bernasek TL, 4(2):49
Surgical approaches to the acetabulum, Mayo KA, 4(4):24
Valgus/flexion osteotomy for osteonecrosis of the femoral head: Indications and technique, Gottschalk F, 4(1):75
Valgus osteotomy of the upper tibia, Coventry MB, 4(1):35
Varus osteotomy of the upper femur for arthritis secondary to congenital dislocation of the hip in adults, Santore RF, 4(1):53
Volkmann's ischemic contracture: The technique of free gracilis transfer, Zuker RM, 4(3):38

Resuscitation frame
External fixation of the pelvis: Application of the resuscitation frame, Sanders R, DiPasquale T, 4(4):60

Rheumatic disease
Caring for the hospitalized patient with arthritis, Beardmore TD, Kaufman RL, 4(1):10
How to effectively treat the patient with arthritis: The effect of socioeconomic demographics on health status and surgical success, Kaufman RL, Beardmore TD, 4(1):6

Rigid fixation
Distal femoral varus osteotomy for the painful valgus knee, Healy WL, Wasilewski SA, Krackow KA, 4(1):47
High tibial osteotomy: The use of an osteotomy jig, rigid fixation, and early motion, Hofmann AA, Wyatt RWB, Beck SW, 4(1):41

S

Sea-gull approach
Sea-gull approach to the posterior pelvis, Jacobs RR, Montesano PX, 4(4):65

Sliding fixation
Treatment of unstable intertrochanteric hip fractures, Waddell JP, 4(2):41

Slipped capital femoral epiphysis
Slipped capital femoral epiphysis: A functional comparison of in situ pinning and primary osteotomy, Aronson J, Bombelli R, Benedini A, Santore RF, 4(1):64

Subtrochanteric fracture
Huckstep nail for ipsilateral fractures of the hip and femoral shaft and for subtrochanteric fractures, Tillett ED, Gleis GE, Seligson D, 4(2):65
Reduction and fixation of subtrochanteric femoral fractures using the ASIF 95° blade plate, Marchesi DG, Kinast C, Lowery GL, Ganz R, 4(2):57
Treatment of pathologic hip fractures, Gitelis S, 4(2):73

Supracondylar fracture
Management of severely displaced supracondylar fractures of the humerus, Wilkins KE, 4(3):5

T

Three-point fixation
Internal fixation of intracapsular hip fractures, Kyle RF, Giacchetto JJ, 4(2):31

Tibia
Computed tomography of pediatric distal tibial growth plate fractures: A practical guide, Herzenberg JE, 4(3):53
High tibial osteotomy: The use of an osteotomy jig, rigid fixation, and early motion, Hofmann AA, Wyatt RWB, Beck SW, 4(1):41
Management of displaced distal tibial injuries involving the physis, Mosca VS, 4(3):65
Preoperative planning for osteotomies about the knee, Gustafson A, Santore RF, 4(1):30
Principles of deformity correction by the Ilizarov technique: Technical aspects, Paley D, 4(1):15
Treatment of pediatric fractures with dynamic axial external fixation, Price CT, Levengood GA, Zink WP, 4(3):74
Valgus osteotomy of the upper tibia, Coventry MB, 4(1):35

Traction
Management of severely displaced supracondylar fractures of the humerus, Wilkins KE, 4(3):5

Triplane fracture
Management of displaced distal tibial injuries involving the physis, Mosca VS, 4(3):65

Triplane osteotomy
Slipped capital femoral epiphysis: Functional comparison of in situ pinning and primary osteotomy, Aronson J, Bombelli R, Benedini A, Santore RF, 4(1):64

V

Valgus/flexion osteotomy
Valgus/flexion osteotomy for osteonecrosis of the femoral head: Indications and technique, Gottschalk F, 4(1):75

Valgus osteotomy
Valgus osteotomy of the upper tibia, Coventry MB, 4(1):35

Varus osteotomy
Varus osteotomy of the upper femur for arthritis secondary to congenital dislocation of the hip in adults, Santore RF, 4(1):53

Volkmann's ischemic contracture
Volkmann's ischemic contracture: The technique of free gracilis transfer, Zuker RM, 4(3):38
